**“K-12 Outreach: Unique contributions through AIChE and how YOU can get involved”**

Scheduled Speaker:

**Rodney Dotson - Director of the Institute for High Performance Learning (HPL) at the City College of New York**

We need engineers to maintain and advance our technological innovation – our creative edge in facing societal challenges – our economic strength. Join us at this important meeting, to find out how AIChE is developing its outreach focus on changing attitudes about science and engineering in our schools and elsewhere at the K-12 level. Find out how YOU can get involved.

**STUDENTS WITH CURRENT ID ARE FREE!**

**This meeting is a must for parents of school-aged children and any AIChE member who wants to play a role in developing a more “science-literate” society with all of the benefits that will bring. Invite your children’s science teachers as well, as they will benefit from the information shared at this meeting.**
