

NAVY STEM CAREERS

Info session and question panel

Thursday June 21, 1 pm

Calder Room

Interested in nuclear energy?

Interested in civil engineering?

Interested in serving your country?

Come see LT Williams to learn more about the Navy's STEM career opportunities. Two Stevens Alumnae, ENS/SEL Romanowski and ENS/SEL Evans will host a question and discussion panel after.

Kristen Romanowski is a Stevens Alumna, from Point Pleasant, NJ, who graduated with her BE in Chemical Engineering in 2016. During her time at Stevens she participated in the Co-op program, Alpha Phi Omega, Student government, and was a Founder of Delta Nu Chapter of Sigma Delta Tau. Now she is a Nuclear Propulsion Officer Candidate and will begin teaching as a Nuclear Power School Instructor in Charleston, SC in 2019.

Brianna Evans is a Stevens Alumna from Spokane, WA, who graduated with a BE in Chemical Engineering and ME in Systems Engineering in 2018. During her time on campus she was a varsity volleyball athlete, member of Omega Chi Epsilon, and tutor. Now she is a Nuclear Propulsion Officer Candidate and will begin work as a Nuclear Reactor Engineer in Washington DC at the end of 2018.
