Customer centric, people focused and results oriented business approach

Why we are here

We are currently hiring graduate students for entry/mid-level opportunities at different locations across the United States.

All selected candidates will undergo an intensive, six to eight week skill enhancement program across cutting edge technologies, before being assigned to various challenging client projects.

Engagements will be comprised of either onsite consulting with some of our reputed US clients or offsite projects executed from our Global Technology Center in Bethlehem, PA.
Free, furnished accommodation, other amenities, and transportation will be provided during the training period.

We are E-Verified (for the benefit of eligible candidates who require sponsorship).

We offer industry-standard compensation packages and benefits along with numerous avenues for professional growth.
