“The family, being the foundation of the nation, is a basic social institution which public policy cherishes and protects. Consequently, family relations are governed by law and no custom, practice or agreement destructive of the family shall be recognized or given effect.”

(Executive Order no. 209, Title V, Chapter 1, Art. 152)

“[T]he family is a familiar topic but there is a need to step back & study it in critical & scientific lenses as personal experiences alone could be very limited & may not be representative of other families in the society.”

For the general body:

“Family is food.”

*“Family is a group of people who bond and show each other love by yelling at each other and eating together.”*

*“Even though they may hurt your feelings, or crush your dreams... they do it because they care.”*

“If I don’t hate them, they’re not family. Family are people who I can forgive for being idiots.”

“It’s not a defining factor to say that family is only the people you are related to by blood.”

*“Family is a broad term that details people who have invested a lot of time and effort into you as a person and people **you have invested a lot of your energy into as well.**”*

*“I would call it love, but I also think it's **responsibility**. You have a responsibility to show to (them) and (they) have a responsibility to show to you that you are family no matter what.”*

*“Family is having people that'll **always care** for you and be there for you regardless of what you do.”*

*“(And) even if people are not seeing eye to eye.”*

“Family... are people who know me better than I know myself.”

“Family is a place where to feel safe, a place of acceptance, and there exists a common ground. ”

*“A place of open arms”*

*“and temporary go*
