Society of Women Engineers  
Stevens Institute of Technology  
Castle Point on Hudson  
Hoboken, NJ 07030

Dear Maggie,

We are very grateful for the tremendous support that members of the Society of Women Engineers gave to CIESE for the recent *100 Years of Science* event with the Girl Scouts. Nearly 300 middle school-aged girls attended this day-long event on September 29<sup>th</sup>, and the efforts of the SWE volunteers greatly contributed to its success and impact. The SWE students who worked tirelessly with the girls on science and engineering activities throughout the day and who spoke on the student panel were truly inspiring and proved to be exceptional role models for these young girls. We very much appreciate all of the time your members dedicated to preparing for and participating in the event.

In recognition of your efforts, CIESE has arranged for a \$500 donation to be made to the Stevens' SWE chapter through the Office of Student Life. We hope that this contribution will enable your organization and members to continue to reach out and inspire more girls to pursue science and engineering in the future.

Thank you again for your assistance in recruiting and providing volunteers for this event. It has been a pleasure getting to know and working with your members.

Best regards,

Mercedes McKay  
Deputy Director
